|--------------------------|---|
| Course name | Basic practice of psychosocial group intervention in the elderly welfare |
| Course Number | CE31913 |
| Credits | 3.0 |
| Year | 3 |
| Term, Weekday and Period | Annual, by appointment |
| Instructor | Katsuo YAMANAKA |
| Course overview | The course will permit students to learn and practice a basic group activity for the elderly especially with dementia in a nursing care or a group home. |
| Remarks | Details will be informed later, but you need to speak Japanese in the practice. |
| Teaching method | Training, experiments and skill |
| Attainment target | Students will be able to obtain basic and practical skills for the group activities in the elderly welfare and nursing care through training. |
| Teaching schedule | Students will participate into the Cognitive Stimulation Therapy, which is regularly conducted on the elderly persons with dementia in group homes. Through the meetings before and after the training, students will learn basic and practical skills. An orientation will be held in advance. |
| Course conditions | |
| Evaluation | Evaluation based on the results of attendance records, attitude toward seminar, and submission |
| Homework | |
| Text Book | We will let you know the reference during classes |
| Reference | We will let you know the reference during classes |
| Office hours | |
| Expectation for student | The course will be conducted at the actual nursing care sites. Students are requested to be serious in the training, so that no users (dementia elderly) would be disadvantaged. Also, students are requested to allow sufficient time margin for traveling, meetings before and after the meeting (in order to formulate issues, preparation, analysis of activities, and review). |
