Opportunity and Challenges of
Introducing IB into Japanese Contexts

講師: キャロル・犬飼・ディクソン

筑波大学客員教授

Education in the twenty first century must develop student competencies and skills that will enable them to participate successfully in a changing and unpredictable globalized world.

Inquiry based learning, which is the foundation of IB pedagogy, has proved to be a sound pedagogy for this in international school contexts.

Implementing the programmes in a Japanese national setting presents new challenges as well as opportunities.

How can these challenges be addressed to provide maximum opportunities?
